

FUNCTIONAL MINERALS FOR YOUR NEEDS

From raw material
sources to high
quality products

WHO WE ARE. VALUE CHAIN CHAMPION.

The association and brand name euroMinerals was formed out of a cooperation between the two companies euroMinerals GmbH (Austria) and Cales de Llierca, S.A. (Spain).

Two specialists in the development and production of industrial minerals with mastery from raw material to final product. A common ownership and collective sales force enables the euroMinerals mission, to make customers' needs the top priority, by offering a corporate product portfolio – from talc, dolomite and composite products to precipitated calcium carbonate and lime – suitable for various distinctive industrial applications.

YOUR APPLICATION – OUR RESPONSIBILITY.

COATINGS & INKS: Whether it is in wall paints for the interior or exterior, in lacquers or plasters, our industrial minerals are not just a filler but a multifunctional performance extender in your formulation, which can lead to numerous positive properties in terms of optical appearance, rheology, weathering or cracking.

POLYMERS: For automotive parts, household appliances, packaging films for food appliances or in window profiles, our products are used due to its outstanding properties, among others, for improving e.g. stiffness, dimensional and color stability as well as resistance to weather.

HEALTH CARE: Specific products for pharmaceutical, food and cosmetic industry are produced with compliance to well-known international standards.

SPECIALTY PAPER: Our products are not only suitable as a filler in the paper and packaging industry. They are also used as a coating pigment and pitch & sticky control agent.

ADHESIVES & SEALANTS: High-performing products for automotive industry as well as construction DIY market, flooring, roofing, glazing, photovoltaic and aerospace industries.

SPECIAL APPLICATION: If your application is unique, this is our business area especially for you. Special developments tailored to our customers' needs are what we are striving for.

COMPLIMENT TO WHAT COMPLEMENTS – OUR PORTFOLIO.

finbond

Performance compound for partly replacing TiO₂

fin talc

White, hydrophobic, flexible, soft - high quality talc

finlime

Ultra fine and highly reactive quicklime and hydrated lime

findolo

Dolomite - more than a simple filler

finpcc

Tailor-made precipitated calcium carbonates for every application

fincomp

Combination of positive properties of minerals for achieving new qualities

finzeo

Innovative qualities – natural clinoptilolite zeolite

R&D. ONE STEP AHEAD.

Innovative products are the basis for a successful future. To achieve this goal, our **Research & Development** department works closely with research institutions and also has a close working relationship with our customers because they know best what they need. It is important to recognize the latest trends and developments in the market and to create individual projects in conjunction with the needs of our customers.

OUR SERVICE. YOUR BENEFITS.

SAVE UP FASTER

Cost saving through functional extension of fillers and pigments.

Faster processes through optimized raw materials.

SPECIAL FOR YOUR BUSINESS

Tailor-made products for tailor-made applications.

Sophisticated laboratory to ensure consistent high product quality.

NAME IT - WE DELIVER

We provide all the common logistic solutions for our customers.

Different packaging variations and all common transport options.

LOOKING FOR:

High-quality products | Flexibility | Technical support | Tailor-made solution | Reliable long-term supply
Then, EUROMINERALS IS YOUR BEST CHOICE.

QUALITY. ENVIRONMENT. HEALTH. SAFETY.

The aim of our goals is to meet our own high demands for quality, safety and ecology, from the production of the raw material right up to the final product, always optimizing the process and analyzing the results. Our management systems are certified by specific authorized bodies and comply with quality, environmental and occupational health & safety standards according to:

ISO 9001, ISO 14001, AND ISO 45001.
